Patent Pending

YULEYS® are designed to be used over and over again, making them not only better for the environment, but also better for the bottom line. YULEYS® have proven in many cases to be a significant cost saver. One of our customers was so impressed they called us up and gave us some feedback and numbers to show just how much we've saved them!

A technician for this plumbing company will average about 30 uses per day with YULEYS®. We'll break this down to show the cost per use:

- At 22 days per month x 8 months x 30 uses we have **5,280 uses over the last 8 months** they have been using YULEYS®.
- If we take the price of \$49.99 per pair and divide by the 5,280 uses we will see the **cost per use is only \$0.009!**
- That's **less than a penny per use** with YULEYS®! or a \$0.06-0.09 savings per use as compared to the disposables they were previously using.
- In just 8 months' time of using YULEYS®, this company **saved between \$300 & \$500 per technician!**

YULEYS® Save Time and Money

If you're making the switch from disposables to YULEYS®, let us show you what you can save with our cost calculator on www.yuleys.com. You may be surprised with just how much it could be!
